

Leadership from the Emerging Future

**A special workshop for
Leaders and Entrepreneurs**

**emerging
futurz**

Workshop based on the principles of Theory U

Theory U was created by Senior Lecturer **Dr. Otto Scharmer** of **MIT Sloan School of Management** to create an action research platform at the intersection of science, consciousness, and profound social and organizational change. Over the past two decades, Theory U as a change framework and set of methodologies has been used by thousands of organisations and communities worldwide to address our most pressing global challenges: climate change, food systems, inequality and exclusion, finance, healthcare and education.

1. Co-initiating:

uncover common intent
stop and listen to others and to
what life calls you to do

2. Co-sensing:

observe, observe, observe
connect with people and places
to sense the system from the whole

3. Presencing:

connect to the source of inspiration and will
go to the place of silence and allow the inner knowing to emerge

5. Co-evolving:

embody the new in ecosystems
that facilitate acting
from the whole

4. Co-creating:

prototype the new
in living examples to explore
the future by doing
